Pennsylvania	83	42	92	92	45	15	87	53	66	58	42	77
South Carolina	72	44	62	90	27	16	32	61	19	84	5	19
South Dakota	75	51	67	86	—	—	—	—	—	—	3	57
Tennessee	62	31	67	80	26	12	53	41	2	68	2	2
Texas	63	44	52	74	22	21	33	31	9	48	6	10
Utah	78	82	51	87	—	—	—	—	37	72	11	62
West Virginia	48	21	76	63	15	5	68	23	—	—	—	—
Wisconsin	83	56	85	86	16	6	58	24	26	61	10	25
Population-weighted average	67	42	66	78	25	16	45	38	26	66	15	25

Note: The state health system performance percentile scores for all three racial and ethnic groups (overall and three performance domains: outcomes, access, quality and use) are reproduced here from the Commonwealth Fund 2021 Scorecard on State Health Equity Performance (released Nov. 2021). That report measured state health system performance for Black (non-Hispanic), white (non-Hispanic), AIAN (non-Hispanic), AANHPI (non-Hispanic), and Hispanic (any race) populations.

A percentile score of “1” indicates that health system performance for that state group is the lowest among all groups measured in the report; a score of “100” indicates that health system performance is the highest among all groups measured. Data are not available for all groups in every state.

Data: David C. Radley et al., *Achieving Racial and Ethnic Equity in U.S. Health Care: A Scorecard of State Performance* (Commonwealth Fund, Nov. 2021).
